VISHAL MISAL

Customer Experience Lead | D2C & Multi-Brand CX Operations | BPO Partner Management | Conversational AI

+91 8425934349 | misal23071995@gmail.com | linkedin.com/in/vishal-misal | Bengaluru, India

PROFESSIONAL SUMMARY

Customer experience leader with 10 years in customer-facing roles, including 5+ years running support operations for direct-to-consumer and consumer app businesses (Ultrahuman, Kuku FM). Ran a 24/7 global D2C support operation across voice, chat and email, scaling it from 60 to 150 associates with a layer of Team Leads and 4 outsourced BPO partners, including commercials and a vendor transition. Led support for 6 apps at once at Kuku FM, cutting cost per query by 80% while contact volume grew 10×. Use ticket, review and refund data to find what drives contact, work with Tech, Product, Fulfilment and Logistics teams to fix it at source, and present the case to the CEO and senior leadership.

KEY ACHIEVEMENTS

- Cut cost per query by 80%, from ₹24.99 to ₹5, while monthly queries grew from 30,120 to 3,20,000+ across 6 apps (Kuku FM)
- Removed a contact driver at source: traced a rating drop from 4.6 to 3.8 to a KukuTV ad backlash, set up an ad review process to block unsuitable ads, and restored the rating to 4.6 (Kuku FM)
- Reduced refunds from ~20% to 5–7% of monthly revenue by analysing cancellation, refund and renewal behaviour and changing policy and renewal communication (Kuku FM)
- Raised bot resolution from 79% to 98% of chats in 10 months as monthly chats grew 2.5× (52,844 to 1,31,022), while bot dissatisfaction fell from 29% to 11% (Kuku FM)
- Cut average chat wait from 16.5 minutes to under 2 minutes in 6 weeks and weekly email TAT from 24.5 hours to about 6 hours, while scaling the team from 60 to 150 associates (Ultrahuman)
- Raised app ratings from 1.6 to 4.6 stars on Play Store and from 1.6 to 4.3 stars on App Store (Kuku FM)

CORE COMPETENCIES

- **CX Operations:** Voice, Chat, Email, WhatsApp, Social & App Store Support, 24/7 Staffing & Shift Coverage, Response & Resolution SLAs, CSAT, NPS & FCR, Escalation Handling, COD/RTO & Returns
- **Agent Partnerships:** BPO/Vendor Selection & Management, Per-Seat & Per-Contact Commercials, Service Level Governance, Partner Quality Oversight, Vendor Transitions
- **Automation & Tooling:** Conversational AI & Chatbots, Bot Deflection & Utterance Training, Ticketing & CRM Evaluation, Cost per Contact, AI Workflow Automation
- **Standards & Quality:** QA/QC Audit Framework, Scorecards, Coaching & PIP, SOPs, DoD/WoW/MoM Metric Reporting
- **Voice of the Customer:** App Store Sentiment, Refund & Cancellation Analysis, Root Cause Analysis, Contact Reduction at Source
- **Leadership:** Cross-functional Partnering (Tech, Product, Fulfilment, Logistics), CEO-level Reviews, Hiring & Team Development

WORK EXPERIENCE

Ultrahuman — Bengaluru, India (Remote)

Senior Team Lead – Customer Support — 04/2025 – 09/2026

Direct-to-consumer health wearables brand; 24/7 support for customers worldwide

- Ran day-to-day CX for a 24/7 global D2C operation handling about 27,000 contacts a week (peak 34,000) across voice, chat and email; led associates and Team Leads and directly managed the 30-person night shift
- Scaled the team from 60 to 150 associates and set the hiring bar through resume screening and second- and final-round interviews
- Cut average chat wait from 16.5 minutes to under 2 minutes (Sep–Oct 2025) and weekly email TAT from 24.5 hours to about 6 hours through staffing, shift coverage and queue planning
- Tracked contact rate per active user at 1.0–1.4% of weekly active users (about 1.2% on average) and kept unplanned shrinkage at 4.8%, inside the 6% target
- Cut average handle time from 16 to 11 minutes (−30%) and email first response from 2–8 hours to about 1 hour, while chats handled per agent rose from about 55 to 64–69 a day
- Owned 4 outsourced BPO partners end to end: negotiated per-seat and per-contact commercials, governed service levels and quality, managed billing and hiring, and led a vendor transition
- Partnered with Tech, Product, Fulfilment and Logistics teams to resolve post-purchase issues at source, including COD, RTO, delivery delays, returns and exchanges
- Built the quality system: Scorecard, QC process, Performance Improvement Plan and Warning Card policy

- Built an AI-powered leave and roster system (Google Apps Script, Slack bot, ChatGPT/Claude), cutting roster preparation from 3+ days to under 4 hours for 150+ associates; cut manual workload by 50%
- Tracked CSAT, NPS and first-contact resolution alongside DoD, WoW and MoM service metrics by channel; designed chatbot workflows in Notion and handled VIP and VVIP escalations

Kuku FM Bengaluru, India
Senior Team Lead – Customer Support 01/2021 – 04/2025
Consumer subscription app business; support for 6 apps (Kuku FM, KukuTV, GURU, Stories, Bhakti, Kuku Tamil)

- Led the full 25-member support department reporting directly to the CEO; earlier managed a team of 16 including QA and trainers
- Ran multi-brand support across email, chat, WhatsApp, voice, social media and app store reviews as monthly queries grew from 30,120 to 3,20,000+
- Cut cost per query from ₹24.99 to ₹10.32 (2024) and then to ₹5 (2025)
- Designed yellow.ai chatbot flows in Figma, reviewed bot conversations and trained utterances, taking automation from 40% deflection to 98% of chats and 70% of all queries
- Judged automation on experience as well as volume: bot resolution rose from 79% to 98% of chats while bot DSAT fell from 29% to 11% and agent-handled chats dropped 71% (11,098 to 3,209 a month)
- Automated refunds through the chatbot, raising the bot-handled share of refunds from 40% to 91% (up to ₹37L refunded by bot in a month), and cut dissatisfied agent chats by 61%
- Used app store reviews and refund, cancellation and renewal data to find contact drivers; fixed them at source through an ad review process and clearer renewal communication
- Cut social first-response time from 3 hours to 6 minutes, social resolution time from 3.3 to 1.6 hours, and email TAT from 40 hours to 4 hours
- Evaluated CRM tools and negotiated better commercial terms with vendors
- Ran weekly syncs with Tech and Product to track user issues in JIRA, weekly QC calls, and monthly performance reviews with the CEO; created SOPs, scorecard and PIP policy
